STRIKE ON RAILROAD BOON TO VESSELS

[By Associated Press to The Banner] CHICAGO, July 6—The railroad strikes and consequent unsettling of railroad transportation, already handicapped by a car shortage, have proven a boon for owners of Great Lakes freighters.

Anything that will remain afloat long enough to negotiate the trip between ports is eagerly sought by shippers.

The Detroit and Michigan automobile markets are proving a particularly rich source of income. One Canadian line operating three big 3500-ton steel freighters, under British registry, has installed special equipment for handling automobiles and is running the boats between Detroit and Chicago, where the cargo is transhipped to railroad cars or delivered under the car's own power.

With three deck levels, the freighters are able to carry several hundred machines on each trip. Special freight elevators have been installed to handle the cars, which are shipped without crating, being fastened to the deck en route. As the cars are delivered on board under their own power and unloaded the same way, reducing loading and unloading time, they make an unusually profitable cargo.

CHICAGO DRAWS MANY FROM FOREIGN LANDS

[By Associated Press to The Banner] CHICAGO, July 6—Less than half of the population of Chicago was drawn from Illinois, census figures show. Two-thirds of the remainder came from foreign lands. The last third was contributed freely by other states of the Union to make Chicago the second largest city in the country.

Of Chicago's population of 2,701,212 those born outside the state numbered 1,443,598. Of these, 944,160 were born abroad and 499,438 hailed originally from some other commonwealth in the U. S.

Of this last source of Chicago's population, New York state sent more of its sons and daughters to Chicago than did any other state.

Ohio was next in contributing to Chicago's population. It gave 50,223 of the city's residents.

Wisconsin stands third, with 49,025. Indiana came fourth, with 45,979. Other states and their citizens that the census takers found in Chicago are:

Michigan 38,864, Pennsylvania 34,002, Minnesota 26,638, Missouri 23,615, Kentucky 17,751, Massachusetts 11,078, Kansas 6,693, Nebraska 4,773, South Dakota 1,200, North Dakota 639, and Oklahoma 355.

SCRATCH ON HAND CAUSES MAN'S DEATH

Harry Gladden, of Centerburg, died at 11:30 o'clock this morning at the Mt. Vernon hospital after ten days' illness of blood poison, resulting from a scratch on his hand.

He is survived by his wife and one small daughter.

The body was removed to the home in Centerburg.

Over fifty years ago a young physician practiced widely in a rural district and became famous for his uniform success in the curing of disease. This was Dr. Pierce, who afterwards established himself in Buffalo, N. Y., and placed one of his prescriptions, which he called "Golden Medical Discovery," in the drug stores of the United States so that the public could easily obtain this very remarkable tonic, corrective and blood-maker. Dr. Pierce manufactured this "Discovery" from roots and barks—a corrective remedy, the ingredients of which nature had put in the fields and forests, for keeping us healthy. Few folks or families now living have not at sometime or other used this "Golden Medical Discovery" for the stomach, liver and heart. Over twenty-four million bottles of this tonic and blood remedy have been sold in this country.
